

Lockout/Tagout: The Control of Hazardous Energy Sources

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and worker's compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with MIO SHA

2 Why you need this Workshop . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000, and indirect costs, which were estimated at an additional \$127 - \$212 billion in 2002. (*2003 Liberty Mutual Safety Index.*)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces worker's compensation costs, improves employee morale, and increases production and quality.

3 What You'll Learn . . .

This MIO SHA program involves a half-day of safety training to address occupational safety hazards that may cause workplace accidents and injuries during maintenance, service and or repair of equipment. Power lock out is implemented to prevent injuries and fatalities due to movement of equipment being serviced or repaired while employees are exposed to hazards. Topics to be covered are definitions, required written programs, procedures and training.

Agenda

We offer a flexible program agenda to emphasize the topics you want most.

▶ Review of General Industry Standard Part 85 - The Control of Hazardous Energy Sources

- ▶ General Requirements
- ▶ Energy Control Program & Procedures
- ▶ Periodic Inspections
- ▶ Application of Controls
- ▶ Outside Personnel (Contractors, etc.)
- ▶ Shift or Personnel Changes

Facilitator

Doug Kimmel was recently named as Michigan's Voluntary Protection (MVPP) Specialist, bringing over 14 years of safety and health experience to this new position. His past positions include: Worker's Compensation Underwriter, Loss Prevention Consultant, and most recently, MIOSHA Safety Consultant.

Doug earned a B.S. (Business Management) degree from Ferris State University, is certified in Workers' Compensation Rating and has successfully completed numerous safety and health training courses.

During his time with MIOSHA, Doug has performed hazard surveys and conducted training at both individual companies and conferences. He has been a speaker at the Michigan Safety Conference and has developed original safety-training programs, which are shared with other safety consultants in the Division.

Doug acts as Team Leader on MVPP on-site reviews, which are performed throughout Michigan. He is responsible for completing reports for the Bureau Director, which recommends the applicant's acceptance as an MVPP company.

Doug Kimmel
*Occupational Safety Consultant,
MIOSHA, CET Division*

Presenters: Doug Kimmel and Anthony Neroni, Occupational Safety Consultants, MIOSHA, CET Division.
